CONTENTS OF VOLUME 43

PART 1 (March 1987)

Covariate adjustments to effective area in variable-area wildlife surveys
F. L. Ramsey, V. Wildman, and J. Engbring 1
Size bias in line transect sampling ..... T. D. Drummer and L. L. McDonald 13
Mixtures of empirical distributions: An iterative application of the age–length key
D. K. Kimura and S. Chikuni 23
A comparison of parent–offspring correlation estimators in terms of large-sample mean squared error and bias ..... M. E. O'Neill, L. H. Prasetyo, A. C. Kirby, and F. W. Nicholas 37
Studies on estimation of phenotypic stability: Tests of significance for nonparametric measures of phenotypic stability ..... R. Nassar and M. Hühn 45
A method for predicting the efficiency of incomplete-block trials
A. E. Ainsley, L. J. Paterson, and H. D. Patterson 55
On the interpretation and use of R^2 in regression analysis ..... I. S. Helland 61
Distribution-free confidence intervals for $\Pr(X_1 < X_2)$ ..... M. Halperin, P. R. Gilbert, and J. M. Lachin 71
Confidence intervals for a binomial parameter based on multistage tests
D. E. Duffy and T. J. Santner 81
A dose–response model incorporating nonlinear kinetics ..... J. Van Ryzin and K. Rai 95
Semiparametric analysis of tumor incidence rates in survival/sacrifice experiments
C. J. Portier and G. E. Dinse 107
Repeated significance testing in survival analysis using a litter-matched design ..... D. Mihalko 115
The natural history of lung cancer in a periodically screened population
B. J. Flehinger and M. Kimmel 127
Evaluation of efficient designs for observational epidemiologic studies ..... L. A. Kalish and C. B. Begg 145
A paired Prentice–Wilcoxon test for censored paired data ..... P. C. O'Brien and T. R. Fleming 169
Extended hazard regression for censored survival data with covariates: A spline approximation for the baseline hazard function ..... J. Etezadi-Amoli and A. Ciampi 181
Shorter Communications
Approximately optimal one-parameter boundaries for group sequential trials
S. K. Wang and A. A. Tsiatis 193
Confidence limits to the risk ratio ..... B. J. R. Bailey 201
Sample size for testing differences in proportions for the paired-sample design ..... R. J. Connor 207
The Consultant's Forum
Interim analyses in randomized clinical trials: Ramifications and guidelines for practitioners
N. L. Geller and S. J. Pocock 213
The use of Markov chains to detect subtle variation in reproductive cycling
D. M. Girard and D. B. Sager 225
Reader Reaction: On the efficiency of age-adjusted tests in animal carcinogenicity experiments
J. J. Gart and R. E. Tarone 235
Response ..... L. M. Ryan 243
Reader Reaction: An example of fitting a differential equation to data
C. A. Glasbey and D. A. Elston 245
Response ..... A. T. James and R. A. J. Conyers 246
Correspondence 249
Book Reviews 251
Correction 259

PART 2 (June 1987)

Asynchronous distance between homologous DNA sequences ..... D. Barry and J. A. Hartigan 261
Residual maximum likelihood (REML) estimation of a neighbour model for field experiments
A. C. Gleeson and B. R. Cullis 277
Extended Mantel–Haenszel estimating procedure for multivariate logistic regression models
K.-Y. Liang 289

A Bayesian approach to the multiplicity problem for significance testing with binomial data
C. Y. K. Meng and A. P. Dempster 301
Testing equality of relative survival patterns based on aggregated data
T. Hakulinen, L. Tenkanen, and K. Abeywickrama 313
A method for cluster analysis based on projections and quantile–quantile plots
J. C. Lindsey, A. M. Herzberg, and D. G. Watts 327
Optimal two-phase stratified sampling for estimation of the age composition of a fish population
J. H. Jinn, J. Sedransk, and P. Smith 343
Detectability functions in observing spatial point processes ..... S. K. Thompson and F. L. Ramsey 355
On the variable circular plot method of estimating animal density ..... S. T. Buckland 363
Computing for incomplete repeated measures ..... K. Berk 385
A Markov model for a clinical episode of recurrent genital herpes
G. J. Badger, P. M. Vacek, and R. C. Reichman 399
Kendall's and Spearman's correlation coefficients in the presence of a blocking variable
J. M. G. Taylor 409
An improved sequentially rejective Bonferroni test procedure ..... B. S. Holland and M. D. Copenhaver 417
Shorter Communications
Estimators of the variance of the Mantel–Haenszel log-odds-ratio estimate
A. Phillips and P. W. Holland 425
Evaluating interrater agreement through "case–control" sampling
R. J. Jannarone, C. A. Macera, and C. Z. Garrison 433
The Consultant's Forum
Logarithmic transformations in ANOVA ..... D. A. Berry 439
Simultaneous confidence intervals for the general linear model ..... C. Fuchs and A. R. Sampson 457
Choice of column scores for testing independence in ordered $2 \times K$ contingency tables
B. I. Graubard and E. L. Korn 471
Book Reviews 477

PART 3 (September 1987)

The analysis of multiple endpoints in clinical trials ..... S. J. Pocock, N. L. Geller, and A. A. Tsiatis 487
Analyses of two-way chronic studies ..... J. J. Chen and R. L. Kodell 499
Threshold dose–response models in toxicology ..... C. Cox 511
The analysis of cancer chemoprevention experiments ..... S. M. Kokoska 525
Confidence intervals on the ratio of expected mean squares $(\theta_1 + d\theta_2)/\theta_3$
T.-F. C. Lu, F. A. Graybill, and R. K. Burdick 535
Exact tests for the main effects variance components in an unbalanced random two-way model
A. I. Khuri and R. C. Littell 545
Mean squared error of prediction in models for studying ecological and agronomic systems
D. Wallach and B. Goffinet 561
Cross-validation in principal component analysis ..... W. J. Krzanowski 575
Parental and sib likelihoods in genealogy reconstruction ..... E. A. Thompson and T. R. Meagher 585
Maximum likelihood estimation of the distribution of length at age ..... P. J. Smith 601
Efficient inference for random-coefficient growth curve models with unbalanced data
E. F. Vonesh and R. L. Carter 617
Line-segment confidence bands for repeated measures ..... P. W. Stewart 629
Two-sample rank tests for detecting changes that occur in a small proportion of the treated population
R. A. Johnson, S. Verrill, and D. H. Moore II 641
Two-stage models for the analysis of cancer screening data ..... R. Brookmeyer and N. E. Day 657
Empirical Bayes estimates of age-standardized relative risks for use in disease mapping
D. Clayton and J. Kaldor 671
On the small-sample performance of Efron's and of Gill's version of the product limit estimator under nonproportional hazards ..... J. H. J. Geurts 683
Shorter Communications
Families of discrete distributions satisfying Taylor's power law ..... A. W. Kemp 693
A simple approximation for calculating sample sizes for detecting linear trend in proportions
J. Nam 701
A test for a threshold in an ordered sequence of correlated proportions ..... A. W. Kimball 707
The Consultant's Forum
The statistical evaluation of a three-period two-treatment crossover pharmacokinetic drug interaction study ..... J. L. Ciminera, J. A. Bolognese, and M. H. Gregg 713

Reader Reaction: Proof of safety vs proof of hazard ..... S. P. Millard 719
Response ..... I. D. Bross 724
Correspondence 727
Book Reviews 729
Correction 737

PART 4 (December 1987)

Biases in prevalent cohorts ..... R. Brookmeyer and M. H. Gail 739
Confounding in epidemiologic studies: The adequacy of the control group as a measure of confounding
P. J. Wickramaratne and T. R. Holford 751
Modelling ant–insect interactions on flowerheads of *helichrysum bracteatum*
E. A. Catchpole, B. J. T. Morgan, and D. J. O'Dowd 767
Estimating the population size for capture–recapture data with unequal catchability ..... A. Chao 783
Statistical analysis of the Michaelis–Menten equation ..... J. G. W. Raaijmakers 793
An exact test for Hardy–Weinberg and multiple alleles ..... E. J. Louis and E. R. Dempster 805
A stabilized moment estimator for the beta–binomial distribution
R. N. Tamura and S. Stanley Young 813
Trimmed logit method for estimating the ED50 in quantal bioassay
L. P. Sanathanan, E. T. Gade, and N. L. Shipkowitz 825
On variance estimation in crossover designs ..... J. Kunert 833
A two-stage procedure for bioequivalence studies
A. Racine-Poon, A. P. Grieve, H. Flühler, and A. F. M. Smith 847
Confidence intervals following group sequential tests in clinical trials ..... K. Kim and D. L. DeMets 857
Designs for group sequential Phase II clinical trials
M. N. Chang, T. M. Therneau, H. S. Wieand, and S. S. Cha 865
Sample size determination in clinical trials with an emphasis on exponentially distributed responses
A. J. Gross, H. H. Hunt, and A. B. Cantor 875
Randomization and efficiency in Zelen's single-consent design ..... J. Matts and R. McHugh 885
Analysis of covariance in parallel-group clinical trials with pretreatment baselines ..... M. R. Crager 895
Nonparametric estimation of duration of accrual and total study length for clinical trials
T. M. Morgan 903
The efficiency of simulation-based multiple comparisons ..... D. Edwards and J. J. Berry 913
Mixed-model analysis of a censored normal distribution with reference to animal breeding
A. L. Carriquiry, D. Gianola, and R. L. Fernando 929
Asymptotic confidence intervals for the difference between two binomial parameters for use with small samples ..... S. L. Beal 941
Logistic regression for dependent binary observations ..... G. E. Bonney 951
Statistical diagnosis and the influence of diagnostic error ..... D. A. Grayson 975
Shorter Communications
Estimating the size of closed populations using inverse multiple-recapture sampling
D. G. Bonett, J. A. Woodward, and P. M. Bentler 985
A family of confidence intervals for the ratio of two binomial proportions ..... E. J. Bedrick 993
Testing for effective intervention ..... F. Streit 999
The Consultant's Forum
A general approach to analyzing epidemiologic data that contain misclassification errors
M. A. Espeland and S. L. Hui 1001
Reader Reaction: Dose–response models for teratological experiments ..... D. A. Williams 1013
Response ..... K. Rai 1016
Reader Reaction: Recent models for mark–recapture and mark–resighting data ..... C. Brownie 1017
Response ..... J. Clobert and J.-D. Lebreton 1019
Correspondence 1023
